

Jan is extremely knowledgeable and patient. She has taught both me and my daughter.

Jan taught Suzuki piano to my daughter for several years and I was amazed that in no time at all she was playing nice pieces.

My daughter now plays guitar and her Suzuki training provided by Jan has held her in great stead.

Jan is also teaching me and I am at grade 6 level.

Jan show great versatility and can teach people at all levels. Jan pays great attention to detail and my technique has improved enormously. She has shown me various methods so that practice does not become a chore. This together with performance practice (critiqued by Jan) in front of audiences has been invaluable.
